Refined Canola Oil

Product & enquiry specification sheet

Refined Canola Oil for grade-specific sourcing enquiries. Request the exact product specification, packaging and commercial terms for your intended application.

The rapeseed profile is not used for canola. Request the specific low-erucic product identity and acceptance limits.

No numeric table from a different oil or grade is substituted.

TECHNICAL REQUIREMENTS TO AGREE

Parameter	Acceptance profile
Oil identity and refining grade	Product-specific limit / declaration required
Fatty acid profile including erucic acid	Product-specific limit / declaration required
Free fatty acids and peroxide value	Product-specific limit / declaration required
Moisture, impurities and colour	Product-specific limit / declaration required
GMO documentation where required	Product-specific limit / declaration required
Nutrition and retail label declaration	Product-specific limit / declaration required

Product identity & shelf life

Identity: Canola oil. Origin: as agreed in quotation. Confirm the agreed shelf life and remaining life at delivery.

Packing, labelling & shipment file

Packing is to be agreed for this exact product. Retail packing conditions for other oil grades do not establish its approved pack sizes or bulk transport requirements.

For full bottle, carton, marking and loading requirements, use the separate Oleo Bueno Packing & Logistics guide. Container quantities, gross weights, freight, MOQ and lead time are quotation-specific.

Nutrition & composition

Request a complete product-specific declaration on a stated 100 g or 100 ml basis. No generic nutrient table is substituted. Any fortification or additives must be explicitly ordered and supported by analysis.

Shipment documentation

Inspection certificate; Certificate of origin; Health or phytosanitary certificate where applicable; Weight and quality certificate; Non-radioactivity declaration/certificate if required; GMO status certificate or declaration; Other documents agreed in the purchase contract.

Documents depend on the actual product, purchase agreement and destination. Listed requirements do not certify that documents have already been issued.
