Refined Olive Oil

Product & enquiry specification sheet

Refined Olive Oil for grade-specific sourcing enquiries. Request the exact product specification, packaging and commercial terms for your intended application.

Virgin olive specifications are not used for refined olive oil. Request the exact refined or blended grade.

No numeric table from a different oil or grade is substituted.

TECHNICAL REQUIREMENTS TO AGREE

Parameter	Acceptance profile
Exact grade and blend composition	Product-specific limit / declaration required
Free acidity and peroxide value	Product-specific limit / declaration required
UV absorption parameters where relevant	Product-specific limit / declaration required
Identity and authenticity documentation	Product-specific limit / declaration required
Origin and traceability documentation	Product-specific limit / declaration required
Nutrition and destination-market label	Product-specific limit / declaration required

Product identity & shelf life

Identity: Refined olive oil; composition to be confirmed. Origin: as agreed in quotation. Confirm the agreed shelf life and remaining life at delivery.

Packing, labelling & shipment file

Packing is to be agreed for this exact product. Retail packing conditions for other oil grades do not establish its approved pack sizes or bulk transport requirements.

For full bottle, carton, marking and loading requirements, use the separate Oleo Bueno Packing & Logistics guide. Container quantities, gross weights, freight, MOQ and lead time are quotation-specific.

Nutrition & composition

Request a complete product-specific declaration on a stated 100 g or 100 ml basis. No generic nutrient table is substituted. Any fortification or additives must be explicitly ordered and supported by analysis.

Shipment documentation

Inspection certificate; Certificate of origin; Health or phytosanitary certificate where applicable; Weight and quality certificate; Non-radioactivity declaration/certificate if required; GMO status certificate or declaration; Other documents agreed in the purchase contract.

Documents depend on the actual product, purchase agreement and destination. Listed requirements do not certify that documents have already been issued.
